MM Docket No. 01-44
RM-10022

NOTICE OF PROPOSED RULE MAKING

Adopted: February 16, 2001

Released: February 20, 2001

Comment Date: April 13, 2001

Reply Comment Date: April 30, 2001

By the Chief, Video Services Division:

1. The Commission has before it an amended petition for rule making filed by Pappas Telecasting of America ("Pappas"), requesting the allotment of channel 59 to Derby, Kansas, as the community's first local commercial television service.¹ Pappas states its intention to apply for channel 59 at Derby, if allotted.

2. Pappas states that the allotment of channel 59 would provide the community of Derby with its first local television service, which would promote the objectives of Section 307(b) of the Communications Act of providing a fair, efficient and equitable distribution of television broadcast stations among the various states and communities. In addition, Pappas asserts, the proposed allotment would also promote the second television allotment priority established in the *Sixth Report and Order* in Docket Nos. 8736 and 8975, 41 FCC 148, 167 (1952), of providing each community with at least one television broadcast station.

3. We believe the public interest would be served by proposing the allotment of channel 59

¹ Pappas originally filed on July 22, 1996, a petition for rule making requesting the allotment of channel 46 to Derby, Kansas. Subsequently, Pappas amended its petition for rule making to invoke the provisions outlined in the Commission's Public Notice (*Public Notice*) released on November 22, 1999, DA 99-2605. In that *Public Notice* the Commission announced a window filing opportunity to allow persons with certain pending requests for new analog (NTSC) television stations to modify their requests to eliminate technical conflicts with digital television (DTV) stations and to move from channels 60 through 69. Pappas states that its original proposal to allot channel 46 to Derby would cause interference to a channel 45 DTV allotment at Wichita, Kansas. Thus, Pappas amended its original proposal to specify channel 59 at Derby in lieu of channel 46.

to Derby², since the allotment would provide the community with its first local TV service. Channel 59 can be allotted to Derby³ with a zero offset consistent with the criteria set forth in the Commission's *Public Notice* for evaluating requests to add a new NTSC channel.⁴ Pursuant to the Commission's policy as noted in its *Public Notice*, we will not accept competing expressions of interest in the use of television channel 59 at Derby.⁵

4. Accordingly, we seek comments on the proposed amendment of the TV Table of Allotments, Section 73.606(b) of the Commission's Rules, for the community listed below, to read as follows:

<u>City</u>	<u>Channel No.</u>	
	<u>Present</u>	<u>Proposed</u>
Derby, Kansas	--	59

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. In particular, we note that a showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.

6. Interested parties may file comments on or before April 13, 2001, and reply comments on or before April 30, 2001, and are advised to read the Appendix for the proper procedures. Comments should be filed with the Secretary, Federal Communications Commission, Washington, D.C. 20554. Additionally, a copy of such comments should be served on the petitioner, or its counsel or consultant, as follows:

Andrew S. Kersting
Fletcher, Heald & Hildreth, P.L.C.
11th Floor, 1300 North 17th Street
Arlington, Virginia 22209-3801

² According to the 1990 U.S. Census, Derby is an incorporated community with a population of 14,699 persons.

³ The coordinates for channel 59 at Derby are North Latitude 37-55-01 and West Longitude 97-37-21.

⁴ The Commission stated in its *Public Notice* that amendments to existing petitions to add a new NTSC channel allotment must meet the minimum distance separations to DTV stations as provided in Section 73.623(d).

⁵ New and amended rulemakings petitions submitted during the noted window filing opportunity will be subject to the Commission's normal notice and comment procedures. However, the Commission indicated in the *Sixth Further Notice of Proposed Rule Making*, 11 FCC Rcd 10968 (1996), that new proposals for additional NTSC channel allotments will not be accepted. Furthermore, new parties may not counterproposal a new NTSC allotment in the same or nearby communities. The opportunity for filing counterproposals is limited to those parties with existing petitions and applications that are the subject of the announced filling window indicated in the Commission's *Public Notice*.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Allotments, Section 73.606(b). See Certification That Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend Sections 73.202(b), 73.504 and 73.606(b) of the Commission's Rules, 46 FR 11549, February 9, 1981. The Regulatory Flexibility Act of 1980 would also not apply to rule making proceedings to amend the DTV Table of Allotments, Section 73.622(b) of the Commission's Rules.

8. For further information concerning this proceeding, contact Pam Blumenthal, Mass Media Bureau, (202) 418-1600. For purposes of this restricted notice and comment rule making proceeding, members of the public are advised that no ex parte presentations are permitted from the time the Commission adopts a Notice of Proposed Rule Making until the proceeding has been decided and such decision is no longer subject to reconsideration by the Commission or review by any court. An ex parte presentation is not prohibited if specifically requested by the Commission or staff for the clarification or adduction of evidence or resolution of issues in the proceeding. However, any new written information elicited from such a request or a summary of any new oral information shall be served by the person making the presentation upon the other parties to the proceeding unless the Commission specifically waives this service requirement. Any comment which has not been served on the petitioner constitutes an ex parte presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an ex parte presentation and shall not be considered in the proceeding.
